

Taha Maatof

Document Control Specialist | Performance Reporting & Governance

taha.maatof@gmail.com | (+212) 649569296 | Morocco | [Portfolio](#) | [LinkedIn](#)

Summary

Document Control Specialist with 5+ years managing project documentation across building, infrastructure, and power projects. Skilled in Aconex (EDMS), information governance, document workflows, transmittals, metadata management, and compliance. Uses Power BI and DAX to develop dashboards and KPI reporting that enhance project visibility.

Experience

JESA S.A (JV OCP & Worley) - Document Controller

05/2023 - Present

Multi-Project Building Construction (Education, Residential & Public Facilities)

Khouribga, Morocco

- Managed document control within Aconex, ensuring document integrity, version control, metadata governance, and timely information flow across multidisciplinary engineering teams.
- Designed and maintained Power BI dashboards supporting project governance, supplier performance, document review status, and management reporting.
- Provided user training and guidance on workflows, transmittals, metadata standards, and Aconex best practices.
- Ensured compliance with document control procedures through structured management and classification.

Societe Nouvelle des Conduites d'Eau (SNCE) - Document Controller

02/2022 - 05/2023

Wastewater Treatment Plant (~10,000 m³/day)

Safi, Morocco

- Developed a custom web-based document management application from scratch, in the absence of a formal EDMS, supporting document storage, version control, metadata management, and reporting.
- Implemented document control standards, naming conventions, metadata structures, and filing systems to improve document consistency and retrieval efficiency.
- Performed rigorous quality checks to ensure documentation accuracy, completeness, and consistency.

Freelance - Solutions Developer

02/2018 - 01/2022

Small Business Digital Solutions

Remote, Morocco

- Built web-based document and inventory management systems for small businesses, applying structured data organization and version control principles.
- Developed Power BI dashboards for small and medium-sized businesses, transforming operational data into KPI reports and interactive dashboards.

Daewoo Engineering & Construction Co.,Ltd - Document Controller

01/2017 - 01/2018

Thermal Power Plant - 1386 MW (Piping Department)

Safi, Morocco

- Managed the full lifecycle of project documentation, from registration and updates to final archiving.
- Controlled and delivered final documentation packages, ensuring compliance with project standards, client requirements, and contractual obligations.
